

MUHAMMED SINAN

MERN Stack Developer

Kerala, India | +91 9526095873 | mhdsinanat20@gmail.com | [GitHub Profile](#) | [LinkedIn Profile](#)

[Portfolio](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in developing secure and scalable applications with JWT-based authentication, RESTful APIs, and role-based access control. Strong understanding of frontend component architecture, backend API design, and full-stack integration, with a focus on clean, maintainable code and performance-optimized applications.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER INTERN, Sinnonteq IT Consulting, Calicut 02/2026 – 05/2026

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and REST APIs
- Built reusable and responsive frontend components from UI/ UX designs with a focus on performance and cross-device compatibility
- Contributed to feature development for client-facing applications through frontend and backend integration
- Debugged and improved application stability by resolving UI issues and enhancing overall user experience

PROJECTS

MediFlow – Healthcare Management System [🔗](#), (React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS)

- Developed a full-stack healthcare management system with separate workflows for patients, doctors, and administrators using the MERN stack
- Implemented JWT-based authentication and role-based access control for secure access across multiple user roles
- Built appointment booking, doctor discovery, patient management, and profile management features with REST API integration
- Designed responsive UI components and backend APIs using React.js, Node.js, Express.js, and MongoDB for scalable CRUD operations

Resumy – AI Resume Analyzer [🔗](#), (React.js, Node.js, Express.js, MongoDB, Gemini API, JWT)

- Developed an AI-powered web application to analyze resumes and generate improvement suggestions using the MERN stack
- Integrated Gemini API to process uploaded resumes and provide feedback on resume content, structure, and improvement areas
- Implemented secure JWT-based authentication, PDF upload handling, and backend APIs using Node.js, Express.js, and MongoDB for resume processing workflows

SneakerHub – E-Commerce Frontend Application [🔗](#), (Next.js, Clerk Authentication, Tailwind CSS)

- Developed a responsive e-commerce frontend application using Next.js with reusable component architecture and modern UI practices
- Implemented secure authentication using Clerk for login, signup, and protected user flows
- Built shopping features including product listing, product details, cart management, and simulated order placement workflows with responsive UI design

SKILLS

- **Languages & Core:** JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React.js, Next.js, Tailwind CSS, Bootstrap, Framer Motion
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Database:** MongoDB, PostgreSQL
- **Tools:** Git, GitHub, Postman, Figma, Vercel, Render, Netlify, Cloudinary

EDUCATION

MERN Full Stack Development Program, Techolas Technologies, Calicut 04/2025 – 01/2026

- Completed hands-on training in MERN stack development using React.js, Node.js, Express.js, and MongoDB
- Built full-stack applications with REST APIs, JWT authentication, and CRUD operations
- Developed responsive frontend interfaces and backend integrations through project-based learning

Bachelor of Commerce (B.Com), University of Calicut 08/2022 – 03/2025

CERTIFICATIONS

- MERN Full Stack Development National Council for Technology and Training (NACTET) 2026
